Valley Center	12	0.2%	***
Other	441	6.4%	
Unknown****	75		
Total San Diego County Residents	6,983	100.0%	209.2

^{*}Percentages may add up to greater than 100% due to rounding. Cases with unknown city of residence are excluded from percentage calculations.

Some San Diego County cases have been travel-related and did not contract COVID-19 in the County.

Some addresses with a postal address indicating a city may be reallocated to the unincorporated area based on their physical location of the address.

COVID-19 now has reached community transmission status, which means people may have contracted the illness elsewhere in the County. This may not necessarily be in the city where they live. These data should not be interpreted as an indication of activity in any specific location. Under a community transmission status, the true prevalence of this disease may not be known as most cases are likely not diagnosed or reported.

Data are preliminary and subject to change.

 ${\tt Data\ Source: San\ Diego\ County\ Communicable\ Disease\ Registry;\ SANDAG\ 2018\ Population\ Estimates\ (Prepared\ July\ 2019)}$

 $Prepared \ by \ the \ County \ of \ San \ Diego, \ Health \ and \ Human \ Services \ Agency, \ Public \ Health \ Services, \ Epidemiology \ and \ Immunization \ Services \ Branch$

^{**}Overall total rates and incorporated city rates are calculated using 2018 population estimates from the San Diego Association of Governments.

Unincorporated community rates are calculated using population data from the 2010 U.S. Census. Rates based on small case counts may vary considerably and should be interpreted with caution.

^{***} Rates are not calculated for counts under 5 cases or population size under 10,000.

^{****}More information may become available as individual case investigations are completed. Cases with unknown city of residence are excluded from percentage calculations.
